

WANTAGE TOWN COUNCIL

REQUEST TO OXFORDSHIRE COUNTY COUNCIL FOR 20 MPH RESTRICTIONS IN WANTAGE

As there have been a number of road traffic incidents in recent history, the Town Council has decided to take advantage of the recent campaign "20 is Plenty". It is hoped by reducing the speed limit on roads that the traffic will flow more steadily, there will be less accidents and it will give more people confidence to cycle and walk. It is also hoped that this will help make the town safer, easier to navigate and as a result more attractive and friendly.

All residential roads within Wantage Town to be reduced to 20mph including town centre roads, apart from:

Key

-  A417 going past Mably Way Health Centre (marked) to remain at 30mph
-  A417/A338 (marked) to be 30mph until Wantage Eastern Link Road is built – then these roads to be reduced to 20mph
-  A417/Denchworth Road (marked) to be 30mph (Note apart from suitable zone outside Fitzwaryn school which is to be 20mph), until Wantage Western Link road is built - then these roads to be reduced to

It would help in its request to the County Council for the Town Council to receive feedback from residents regarding the proposal. For this purpose it is conducting an online survey which it invites you to complete. This can be accessed via link [20 is Plenty Proposal Survey \(surveymonkey.co.uk\)](https://www.surveymonkey.co.uk)

The deadline for completion is 28th February 2022.
