

Help shape Wantage Hospital's future

We're working to refurbish the hospital's ground floor so we can bring even more services locally to the people of Wantage and Grove.

And we need your help to ensure that the hospital's layout and design – everything from the entrance and waiting area through to clinic rooms are accessible and welcoming – especially for those with any form of disability.

If you would like to help shape Wantage hospital's future, then just scan the QR code below to find out more and to get involved
